

## 2022 WEBINAR SCHEDULE

Learn More About:

### Risk Adjustment Documentation and Coding

Each webinar includes a high-level overview of Risk Adjustment (RA), Hierarchical Condition Categories (HCCs), and the role of the Provider and Support Personnel.

**JANUARY**

**25 & 27**

8:30am 12:30pm 3:30pm | 8:30am 12:30pm 3:30pm

#### A Sense of Direction: Navigating 2022 Coding Updates, COVID-19, Telehealth, and More

Join us to learn all the navigation tools needed to properly document and code provider services with the latest ICD-10 updates, along with COVID-19 and Telehealth coding guidance.

**JULY**

**26 & 28**

8:30am 12:30pm | 8:30am 12:30pm

#### The Reality of Coding for the Most Prevalent Endocrine Disorders

Improve your practice's submission of the most prevalent risk-adjustable condition and its associated manifestations. Learn documentation essentials for correctly coding juvenile onset diabetes, type I and II diabetes, secondary diabetes, and diabetes due to genetic defects or post procedure. Build upon the essentials to efficiently and effectively code for manifestations such as nephropathy, neuropathy, and retinopathy as well.

**FEBRUARY**

**22 & 24**

8:30am 12:30pm 3:30pm | 8:30am 12:30pm 3:30pm

#### The ABC's of Proper Coding for the Pediatric Population

Explore the specific coding guidelines and quality metric reporting for Childhood Asthma, Diabetes, Obesity, Autism, and more!

**AUGUST**

**23 & 25**

8:30am 12:30pm | 8:30am 12:30pm

#### Filtering the Guidelines of Correct Documentation and Coding for CKD and Associated Manifestations

Join us for a deep dive into correct coding and documentation of the stages of Chronic Kidney Disease through End State Renal Disease, kidney transplant status, dialysis, and the many complications that may arise from Chronic Kidney Disease such as Hypertension, Congestive Heart Failure, and Anemia.

**MARCH**

**29 & 31**

8:30am 12:30pm 3:30pm | 8:30am 12:30pm 3:30pm

#### Consider the Landscape: Social Determinants of Health that May Impact your Patients

Join in the discussion on the importance of screening for Social Determinants of Health; and learn how to properly document, address, and code for the circumstances that impact the care and outcome of your patients.

**SEPTEMBER**

**27 & 29**

8:30am 12:30pm | 8:30am 12:30pm

#### Delivering Accurate Codes Related to Obstetrics and Gynecology

Discover how to successfully identify obstetric and gynecologic conditions that are risk-adjustable including gestational diabetes and high-risk pregnancies as well as the significance of proper screenings for Breast and Cervical Cancer.

**APRIL**

**26 & 28**

8:30am 12:30pm | 8:30am 12:30pm

#### Breaking Down the Specifics of Coding for Orthopedic Conditions

Walk with us through the requirements of coding and documenting for orthopedic conditions including Fractures, Spinal Fusion, Pain Management, related surgical interventions, and other associated conditions.

**OCTOBER**

**25 & 27**

8:30am 12:30pm | 8:30am 12:30pm

#### The Beat Goes On: Risk Adjustment Documentation and Coding for Cardiovascular Conditions

Review specific coding guidelines for the United States' leading cause of death: Cardiovascular disease. Discuss documentation and coding for the most prevalent conditions including coronary heart disease, angina, heart failure, hypertension with heart disease, and acute myocardial infarction.

**MAY**

**24 & 26**

8:30am 12:30pm | 8:30am 12:30pm

#### Transmitting Updates for Coding Related to Neurologic Conditions, Chronic Pain, and Mental Health

Join us to review accurate documentation and coding for diseases of the central and peripheral nervous systems such as Epilepsy, Generalized Seizure Disorders, Chronic and Acute pain, Migraines, Alzheimer's disease, and pain management in your patient population.

**NOVEMBER**

**15 & 17**

8:30am 12:30pm | 8:30am 12:30pm

#### Breathe Easy: A Deep Look at Coding and Documentation for Diseases of the Respiratory System

Gain in-depth insight into proper documentation and coding for chronic obstructive pulmonary disease, asthma, emphysema, and other common respiratory disease processes.

**JUNE**

**28 & 30**

8:30am 12:30pm | 8:30am 12:30pm

#### Coding Digest: Common Gastrointestinal Conditions

Digest the details of common gastrointestinal diseases and how to document and code for them. Review Disorders of the Gallbladder, Biliary Tract and Pancreas and the impact of the pandemic on proper nutrition and timely screening.

**DECEMBER**

**20 & 22**

8:30am 12:30pm | 8:30am 12:30pm

#### A Survivor's Guide to Coding for Cancer and Hematology

Discover the challenges of correctly coding the most common benign and malignant cancers and take a deep dive into metastatic diseases related to neoplasms that providers are assessing and treating daily.
