

# Humana risk adjustment 2024 monthly learning series January–June CME and CEU sessions

The Humana risk adjustment provider education team is pleased to offer the following live, online learning sessions for the first six months of 2024. A subsequent flyer will be sent for the second half of the year. Some presentations offer a free continuing education credit for registered participants: continuing medical education (CME) for licensed clinicians and/or continuing education unit (CEU) for certified medical coders.\*

Along with the topic-specific webinars, we will be hosting the following sessions quarterly:

- **MRA Overview** – These sessions will focus on risk adjustment as the Centers for Medicare & Medicaid Services (CMS) payment model for Medicare Advantage (MA) plans, designed to encourage MA organizations (MAOs) to compete based on efficiencies and quality of care, rather than on ability to attract healthy individuals.
- **The Importance of Accurate Documentation and Coding: A Physician’s Perspective** – These sessions will focus on understanding the healthcare components related to risk adjustment and how to leverage accurate clinical documentation and coding to capture the true health status of the patient. **This presentation will offer CMEs.**

All times are Eastern Standard Time.
